

AYUSH CHOWHAN

FLUTTERFLOW DEVELOPER

Hi there! 🙋 I'm Ayush chowhan, a passionate software developer with a knack for creating innovative solutions to real-world problems. I'm currently pursuing a Bachelor of Technology in Computer Science at Sage University, where I've had the opportunity to delve deep into various aspects of software development.

SKILLS

Flutterflow

Python

AWS

Firebase

Linux

EDUCATION

Oct 2020 - Oct 2024

Bachelor of Technology - Computer Science

Sage University

President of Movie Club, Ex-Secretary of Coding Club

CERTIFICATIONS

Jan 2023

AWS Certified Solutions Architect - Associate (SAA-C02)

Skills: Cloud Computing, Cloud Storage, Cloud-Native Architecture

AWARDS

2019

5-Star Coder | HackerRank (Python)

Recognized as a 5-star coder in Python on the HackerRank platform, demonstrating proficiency and excellence in coding skills.

2022

Second Runner Up | IEEE Conference

Secured the second runner-up position at the IEEE conference held at Sage University, Bhopal, in December 2022.

2022

Second Prize | Coding Competition

Won the second prize in a coding competition organized during Engineer's Day celebrations in September 2022.

-

2-Star Coder | CodeChef (Rating: 1434)

Attained a 2-star rating with a CodeChef rating of 1434, showcasing proficiency in competitive programming.

CERTIFICATIONS

Jan 2023

AWS Certified Solutions Architect - Associate (SAA-C02)

Skills: Cloud Computing, Cloud Storage, Cloud-Native Architecture

PROJECTS

-

University Attendance & Library Management System

FlutterFlow Developer

- Designed and developed a comprehensive attendance and library management system for university-level usage.
- Implemented QR-based attendance tracking using FlutterFlow for easy and efficient data capture.

-

AWS Deployment

Software Developer

- Deployed multiple projects on AWS including websites and backend services for scalability.

-

Firebase Integration

Software Developer

- Integrated Firebase for authentication, database, and cloud functions in various applications.

EXPERIENCE

Mar 2021 - Mar 2023

Software Developer | freelancer

Part-time

- Handled various freelance projects, developing software solutions for clients.
- Utilized technologies such as FlutterFlow, Firebase, and AWS to deliver high-quality products.
- Worked independently to meet project deadlines and exceed client expectations.

Mar 2023 - Jul 2023

Software Developer | TOPGRID

Part-time

- Developed web interfaces using FlutterFlow and Docker for part sales platform.
- Implemented role-based access control for secure interaction between vendors and customers.
- Deployed applications on AWS, ensuring high availability and reliability.

Mar 2021 - Mar 2023

Software Developer | cctvserv

Part-time

- Contributed to software development projects, specializing in FlutterFlow, Firebase, and AWS.
- Optimized software solutions for performance and scalability.
- Created web-based applications using FlutterFlow and Docker, reducing loading times by 40%.
